

# Annual Implementation Plan: for Improving Student Outcomes

School name: **Sydenham-Hillside Primary School**

Year: **2017**

School number: 3559

Based on strategic plan: 2017-2022

Endorsement:

Acting Principal: Sharon Nichols .....Date: 18 May 2017

Senior Education Improvement Leader: Jason Smallwood

School Council President: Roz Huseyin .....Date: 18 May 2017

## Section 1: The school's Improvement Priorities and Initiatives

Report here the goals identified in the current School Strategic Plan and tick the Improvement Initiative/s that you school will address in this Annual Implementation Plan: for improving Student Outcomes.

School Strategic Plan goals
<ul style="list-style-type: none"> <li>To maximise staff capacity to improve student learning outcomes.</li> <li>To maximise student learning growth in Literacy and Numeracy to ensure each student makes or exceeds expected progress.</li> <li>To improve the intellectual engagement and active student voice in learning for all students.</li> </ul>

Improvement Priorities	Improvement Initiatives	✓
Excellence in teaching and learning	Building practice excellence	✓
	Curriculum Planning and assessment	✓
Professional Leadership	Building leadership teams	
Positive climate for learning	Empowering students and building school pride	✓
	Setting expectations and promoting inclusion	
Community engagement in learning	Building communities	

### Improvement Initiatives rationale:

Explain why the school, in consultation with the Senior Education Improvement Leader (SEIL), has selected the above Improvement Initiative/s as a focus for this year. Please make reference to the evaluation of school data, the progress against School Strategic Plan (SSP) goals and targets, and the diagnosis of issues requiring particular attention.

The review highlighted the need for all staff to continue to build their pedagogical knowledge in Literacy and Numeracy and to develop consistency in the delivery of the agreed instructional models. The leadership team completed a thorough analysis of our school data. The review identified that our students' growth is low to medium between year levels. Our teacher judgement is not consistent with our NAPLAN data in some cases. In Year 3 and Year 5 the percentage of students working above the level is higher on NAPLAN than on teacher judgement. We noted that teachers within the school are not always confident to mark the students above the level and are reserved in their judgement. From this analysis, we have determined that teachers need to be confident to use data to inform their teaching and make consistent teacher judgement by triangulating data. As a school, we will need to continue to build teacher capacity and student confidence in understanding and utilising a range of assessment strategies to assess student progress and plan future learning. We aim to develop a systematic approach for teachers to build data Literacy and to analyse data that will differentiate their teaching according to their students' needs and to explicitly teach specific Literacy and Numeracy concepts at the students' point of need. There is a need to embed an approach to use data and evidence, which enables students to track progress and actively engage in goal setting.

These areas of improvement were chosen because the review uncovered a need to continue to focus on high expectations and through moderation, developing clearer understandings of the achievement capabilities of high performing students.

### Key improvement strategies (KIS)

List the Key improvement strategies that enable the implementation of each Improvement Initiative. This could include existing strategies already being implemented as well as new ones identified through analysis of data, evaluation of impact of prior efforts, measurement of progress against targets and the diagnosis of issues requiring particular attention. KIS may be specific to one outcome area or applicable across several areas.

Improvement initiative:	Key improvement strategies (KIS)
Building practice excellence	<ul style="list-style-type: none"> <li>Build the effectiveness and efficacy of each teacher by full implementation of an agreed research based instructional classroom delivery model and instructional practices across the school.</li> <li>Build quality teacher practice through engagement in regular coaching, feedback and structured staff professional learning.</li> </ul>
Curriculum planning and assessment	<ul style="list-style-type: none"> <li>Build teacher capacity and student confidence in utilising a range of data/evidence to assess student progress and plan future learning.</li> <li>Develop student ownership for their learning with high expectations for student learning outcomes.</li> </ul>
Empowering students and building school pride	<ul style="list-style-type: none"> <li>Plan for challenging goals and effective feedback to facilitate personalised learning with students.</li> </ul>

## Section 2: Improvement Initiatives

Each table below is designed to plan for and monitor each Improvement Initiative. Add or delete tables – one for each Improvement Initiative from Section 1 on the previous page. You can also add or delete rows so that there is alignment and the line of sight between the key improvement strategies, actions, success criteria and monitoring. The goals come directly from your School Strategic Plan (SSP) – you will find it helpful to keep them in the same order.

Please note that, in the progress section, ● ● ● respectively indicate: ● not commenced or severely behind schedule. ● slightly behind schedule but remediation strategies are in place to get back on schedule and ● on schedule and/or completed.

### NAPLAN Reading Relative Growth Years 3-5

Reduce the % of student showing low growth from 26% in 2016 to less than 20% in 2020  
Increase the % of students showing high growth from 25% in 2015 to more than 35% in 2020

### NAPLAN Numeracy Relative Growth Years 3-5

Reduce the % of student showing low growth from 28% in 2016 to less than 20% in 2020  
Increase the % of students showing high growth from 23% in 2015 to more than 30% in 2020

### Staff Opinion Survey

By the end of 2020, the mean factor scores for Staff Opinion Survey factors will be:

Component Mean Score	Staff Opinion Survey	
	2016	2020
Teacher collaboration	72.49	80
Academic emphasis	76.16	85

### Teacher Judgements

Foundation: The Foundation team will aim to improve **Reading** outcomes, for all students, to reflect 12 or more months growth as measured by teacher judgement data. Target: 95% of students to achieve at or above standard in Reading.

Grade 1: The Grade 1 team will aim to improve **Writing** outcomes, for all students, to reflect 12 or more months growth as measured by teacher judgement data. Target: 20% to be above standard.( 2016 -14.22% above standard)

Grade 2: The Grade 2 team will aim to improve **Reading** outcomes, for all students, to reflect 12 or more months growth as measured by teacher judgement data. Target: Reduce the percentage of students achieving below standards by 4% .( 2016 - 8.95% below standard)

Grade 3: The Grade 3 team will aim to improve **Number** outcomes, for all students, to reflect 12 or more months growth as measured by teacher judgement data. Target: Reduce the percentage of students achieving below standards by 4%.( 2016 - 9.3% below standard)

Grade 4: The Grade 4 team will aim to improve **Number** outcomes, for all students, to reflect 12 or more months growth as measured by teacher judgement data. Target: Reduce the percentage of students achieving below standards by 5%.( 2016 - 12.38% below standard)

Grade 5: The Grade 5 team will aim to improve **Number** outcomes, for all students, to reflect 12 or more months growth as measured by teacher judgement data. Target: Reduce the percentage of students achieving below standards by 5%.( 2016 - 10.76% below standard)

Grade 6: The Grade 6 team will aim to improve **Writing** outcomes, for all students, to reflect 12 or more months growth as measured by teacher judgement data. Target: Reduce the percentage of students achieving below standards by 5%.( 2016 - 10.83% below standard)

### NAPLAN Relative growth in Reading and Number from Yr 3-Yr 5

To increase the % of students showing high growth in Reading from 25% in 2016 to more than 27% in 2017.  
To reduce the % of students showing low growth in Reading from 26% in 2016 to less than 24% in 2017.

To increase the % of students showing high growth in Number from 23% in 2016 to more than 25% in 2017.  
 To reduce the % of students showing low growth in Number from 28% in 2016 to less than 26% in 2017.

## Section 4: Annual Self-Evaluation

[Drafting Note Annual self-evaluation section enables schools to continuously collect, monitor and analyse school data about all aspects of school performance. This ensures that all aspects of school performance are considered throughout the year and that any risks, issues and opportunities are identified as they emerge. The Annual self-evaluation against the Continua of Practice should be completed as data becomes available]

**Reflective comments:** [Drafting Note Please use this section to summarise your learnings from the self-evaluation process, including professional growth and key findings]

**Confidential cohort's analysis:** [Drafting note This section is not for public distribution. Report here the extent to which cohorts of students within the school (including Koorie, high ability, refugee, EAL, PSD, out of home care students, etc.) are being supported and challenged, leading to an inclusive and stimulating environment for all students]

**Considerations for 2018:**
